Infiltrator Systems Agrees to Acquire Advanced Drainage Systems' Septic Chamber Assets

Old Saybrook, CT (November 21, 2011) – Infiltrator Systems, Inc. (ISI) announced today it has agreed to acquire the assets of the septic chamber business of Advanced Drainage Systems, Inc. (ADS) and its subsidiaries. The acquisition is part of Infiltrator Systems' ongoing commitment to offer the most innovative quality and service to the onsite wastewater industry. Infiltrator currently offers a broad family of products that save septic installation professionals time and money. Infiltrator's current wastewater product offerings include the Quick4™ and Quick4 Plus™ lines of septic chambers as well as the TW™ and IM™ series of septic tanks, EZflow™ synthetic aggregate leachfields, EZset™ risers and Aquaworx™ products.

As part of the acquisition, ADS, based in Hilliard, OH, has entered into a long-term, non-exclusive distribution agreement with Infiltrator Systems and will continue to market and sell the Arc™ and BioDiffuser™ product lines.

The ADS chamber product line is comprised of a family of onsite wastewater infiltration chambers that are well established in the onsite industry. These products include the Arc™ 18, Arc™ 24, Arc™ 36, Arc™ 36LP, Arc™ 36HC chambers as well as the complete BioDiffuser™ line of chambers.

"We are excited about the opportunity to expand our product offering to the marketplace," stated Roy Moore, President and CEO of Infiltrator Systems. "Customers will continue to receive a broad array of products that best suit their needs as well as ISI's high quality support and individualized service. We also believe this addition will lead to more efficient manufacturing operations, allowing us to be even more competitive with alternative solutions in the marketplace."

"This is a 'win-win' for the industry," stated Joe Chlapaty, Chairman and CEO of ADS. "The agreement allows ADS to continue to compete vigorously for septic leachfield product sales by distributing Arc™ and BioDiffuser™ products manufactured by ISI as well as ADS's other septic leachfield products. It has always been our intention to offer

our distribution network the finest products and services available. We feel this agreement best addresses the ever evolving needs of our customers and employees."

The transaction is expected to be completed within the next several months, subject to customary closing conditions and necessary regulatory approvals. Terms of the transaction were not disclosed.

About Infiltrator Systems

Since its inception in 1987, Infiltrator has introduced innovative products that meet increasingly stringent environmental and regulatory onsite wastewater treatment requirements. Through their understanding of the marketplace and the integration of engineering and manufacturing expertise, science, and technology, Infiltrator is one of the leaders in the highly competitive onsite wastewater industry. Infiltrator is based in Old Saybrook, CT.
